

Forest School Session Evaluation - Session 2

Reflection and evaluation

- the children loved this session and enjoyed finding all of the pieces of wool - We talked about collecting it all at the end to include woodland management
- it was a very windy day and this worked with the story
- children needed a lot of help wrapping their sticks
- some wool was in difficult to reach places to add challenge

The children learned:

- effects of weather (wind)
- observation
- fine motor skills

I learned:

- give activities to other staff to manage - the jars were not used much as the children were following me

Ideas for next time:

- do some construction with items found

Add to risk assessment:
