

Forest School Session Evaluation – Session 4

Reflection and evaluation

- This session was more structured and staff + children were more motivated
- the children loved the hunt and were sad when the session ended
- some children branched off to role play with a shelter

The children learned:

- Observation skills
- Working together
- to use the woods in imaginary role play

I learned:

- The sessions are better when everybody's needs are met!

Ideas for next time:

- build on role play and introduce a book

Add to risk assessment:
